# 1. Multimedia Artgroup in Multi/inter-Disciplinary Field

**LOCAL POST**  
social network Project group

Local Post is a group formed by artists currently residing in 6 different continents through the usage of SNS, such as Facebook, to participate in the "Global Social NetworkProject," which brings together multi/inter-disciplinary fields to discuss personal, regional, artistic, social, cultural, political, and other aspects of life to propagate ideas for collaborative, interdisciplinary projects that manifest themselves as online and/or off-line works. The goal of Local Post is to diversify and enrich our lives by offering alternative perspectives mainly through the breaking down of barriers amongst artists as well as that which exist between artists and the public. Local Post, therefore, with continued research on public participation and engagement develops educational programs through multimedia productions that fuse diverse disciplines.

Local Post brings together members of diverse fields and disciplines. Visual artists practice in installation, animation, painting, and multimedia. Performance based artists include a pianist, a vocalist, a dancer/choreographer, and a guk (Korean classical) musician.

## Member:

Kim Mi-Ryeon, Kabaretter Kim, Son Youngdeuk, Noh A-Young, Oh, Junghyang, Jeong Jinseok, Hwang Inmo, Jung Ho Bang

## Structure and composition of ACTIVITIES

### 3. Interactive Media Installation

The image of SNS and the accumulated image shows the cross section of the modern consumer society where the image is consumed more than the actual value in conjunction with the bicycle interaction.
